LEGAL NOTICE.

NO. 243. TERRITORY OF HAWAII. COURT OF LAND REGISTRATION. TERRITORY OF HAWAII TO MARIE K. HUMPHREYS; SPENCER K. BICKERTON; TERRITORY OF HAWAII, by Alexander Lindsay, Jr., Attorney General, and H. K. BISHOP, Superintendent of Public Works; CITY AND COUNTY OF HONOLULU, by Joseph J. Fern, Mayor and President of the Board of Supervisors; Trustees under the Will and of the Estate of BERNICE P. BISHOP, deceased, and to ALL whom it may concern:

Whereas, a petition has been presented to said Court by George Rodiek to register and confirm his title in the following-described land:

Being portion of Royal Patent 707, C. Award 19613, Apana 10 to A. Paki and being Lots 3 and 4 of the Niolopa Lots as sub-divided by the Trustees of the Estate of Bernice P. Bishop, Nuuanu Avenue, Laimi, Honolulu.

Beginning at a 2-inch galvanized iron pipe at the South corner of Lot 5 of the Bishop Estate, Niolopa Lots, and the East corner of Lot 4 on the North West side of Nuuanu Avenue, the true boundary and distance being 63'00" - 63.3 feet from a street monument in the center of Nuuanu Avenue to point of beginning and the coordinates of said monument referred to the government survey trig. station "Rosebank" are 1348.8 feet North and 266.6 feet West and running by true azimuths as follows:

35° 29' 186.3 feet along Nuuanu Avenue to the East corner of George Rodiek's property, Court of Land Registration Petition No. 160;

40° 5' 362.6 feet along George Rodiek;

62° 35' 73.9 feet along George Rodiek;

65° 21' 211.0 feet along George Rodiek;

65° 32' 48.8 feet along George Rodiek; to Jack Lane;

159° 3' 97.4 feet along Jack Lane to the West Angle of a large stone post;

236° 41' 397.2 feet along lot 2 of the Bishop Estate Niolopa Lots;

235° 10' 95.0 feet to Two-Inch (2-inch) galvanized iron pipe

318° 32' 452.5 feet along lot 5 of the Bishop Estate Niolopa Lots to initial point, Area 102,985 Square Feet.

You are hereby cited to appear at the Court of Land Registration, to be held at the City and County of Honolulu on the 10th day of January A. D. 1913, at two o'clock in the afternoon, to show cause, if any you have, why the prayer of said petition should not be granted. And unless you appear at said Court at the time and place aforesaid your default will be recorded, and the said petition will be taken as confessed, and you will be forever barred from contesting said petition or any decree entered thereon.

Witness the honorable William L. Whitney, Judge of said Court, this 12th day of December, in the year nineteen hundred and twelve.

Attest with Seal of said Court: (Seal) JOHN MARCALLINO, Registrar.

NOTICE.

Payment of Water Rates.

As provided by Chapter 45 of the Revised Laws of Hawaii, 1906, all persons holding water privileges or those paying water rates are hereby notified that the water rates for the six (6) months ending June 30th, 1913, will be due and payable at the office of the Honolulu Water Works, Capitol Building, on the first day of January, 1913.

Upon failure to pay such water rates within fifteen (15) days thereafter an additional charge of 10 per cent will be made.

All privileges upon which rates remain unpaid January 16, 1913 are subject to immediate shut off without further notice.

J. M. LITTLE, Superintendent of Honolulu Water Works, Department of Public Works, Bureau of Honolulu Water Works, December 18, 1912. 5421-101.

NOTICE

Payment of Sewer Rates

In accordance with act 158, Session laws of 1911, the owners and occupants of the premises connected with the sewer are hereby notified that the sewer rates for the six months beginning January 1, 1913, and ending June 30th, 1913, will be due and payable at the office of the Superintendent of Public Works on the first day of January, 1913.

If any sewer rates shall remain unpaid more than 15 days after it is due, 10% in addition thereto shall be charged, which shall be collected as a part of such sewer rate. All unpaid sewer rates shall bear interest at the rate of 6 per cent per annum until paid.

H. K. BISHOP, Superintendent of Public Works, Public Works Office, December 18, 1912. 5421-101.

SEALED TENDERS.

Sealed Tenders will be received at the office of the City and County Clerk, McIntyre Building, up to 12:15 o'clock P. M. of Saturday, December 28, 1912, for the erection and full completion of a Two Story Frame Fire Station at Kaimuki.

Plans and Specifications and form of proposal may be had upon application and deposit of Five (\$5.00) Dollars at the office of Architects Ripley and Davis, Boston Building.

The Board of Supervisors reserves the right to reject any or all tenders and to waive all defects.

D. KALAUOKALANI, Jr., Clerk, City and County of Honolulu, 5429—Dec. 17, 18, 19, 20, 21, 23, 24, 25, 26, 27.

SEALED TENDERS.

Sealed tenders will be received by the Superintendent of Public Works up until 12 noon of Tuesday, December 31st, 1912, for the Construction of certain streets and laying storm drains in same, in the Auwalimu Tract, Punchbowl District, City and County of Honolulu.

Plans, specifications and blank forms of proposal are on file in the office of the Superintendent of Public Works, Capitol Building.

The Superintendent of Public Works reserves the right to reject any or all tenders.

H. K. BISHOP, Superintendent of Public Works, Honolulu, December 13th, 1912. 5417-101.

SEALED TENDERS.

Sealed Tenders will be received by the Board of Harbor Commissioners of the Territory of Hawaii up until 2 p. m. of Friday, December 27, 1912, for constructing a wharf and approach at Kihel, Maui.

Plans, specifications and blank forms of tender are on file in the office of the Chairman, Capitol Building, Honolulu.

The Board of Harbor Commissioners reserves the right to reject any or all tenders.

H. K. BISHOP, Chairman, Board of Harbor Commissioners, Honolulu, November 27, 1912. 5403-301.

Presented by Supervisor EBEN P. LOW, Honolulu, December 17, 1912.

At a regular meeting of the Board of Supervisors of the City and County of Honolulu held on Tuesday, December 17, 1912, the foregoing Resolution was passed on First Reading on the following vote of the said Board, and ordered to print.

Ayes: Amana, Arnold, Dwight, Kruger, Low, McClellan, Murray. Total 7.

Noes: None. D. KALAUOKALANI, Jr., City and County Clerk. 5422—Dec. 19, 20, 21.

RESOLUTION NO. 769.

Be It Resolved by the Board of Supervisors of the City and County of Honolulu, Territory of Hawaii, that the sum of Thirty-two Hundred and Fifty Dollars (\$3250.00), be and the same is hereby appropriated out of all moneys in the General Fund for an account known as "Lighting, Kalauea Avenue Parkway."

Presented by Supervisor HARRY E. MURRAY, Honolulu, December 17, 1912.

At a regular meeting of the Board of Supervisors of the City and County of Honolulu held on Tuesday, December 17, 1912, the foregoing Resolution was passed on First Reading on the following vote of the said Board, and ordered to print.

Ayes: Amana, Arnold, Dwight, Kruger, Low, McClellan, Murray. Total 7.

Noes: None. D. KALAUOKALANI, Jr., City and County Clerk. 5422—Dec. 19, 20, 21.

NOTICE OF CHANGE OF WATER RATES.

As provided by Act 112, Session Laws of 1909, notice is hereby given that from and after January 1, 1913, rates on water privileges installed with proper recording apparatus or water meters will be charged according to meter readings.

Meter rates will be charged at the rate of 6 1/2 cents per 1000 gallons.

H. K. BISHOP, Superintendent of Public Works, Honolulu, T. H., November 21, 1912. 5400—Nov. 22, 29, Dec. 6, 13, 20.

INTERESTING FACTS

CONCERNING LIGHT

Color of Rays Depends Upon Velocity; Eye Fails to Detect Fast Moving Ones

Light travels at a speed of 186,000 miles a second. The source of all light, except the light from fireflies and their kin, is a substance raised to a temperature sufficient to set up waves in the surrounding ether. Light waves vary in length between 1-23400 and 1-650000 of an inch, the first being extreme red and the second being extreme violet. Rays of white light have a length of 1-45000 of an inch. The sun is a great mass of white hot matter.

In an arc lamp it is the white hot particles of carbon floating between the two electrodes which produce light. In the incandescent lamp it is the hairpin filament inside the glass globe which, when heated by electricity, gives off light waves. In gas and oil lamps light is produced by the heated particles of carbon in the flame above the wick or mantle. The eye can stand without tiring in a brilliancy of about five candle-power per square inch or surface. The ordinary candle flame gives from two to three candle-power per square inch, while the sun at zenith gives 60,000 candle-power per square inch. The arc light ranks next to sunlight, with 10,000 candle-power per square inch, and the best tungsten filament incandescents give about 1100-candle-power.

Our prism shows us that white light is composed of a happy blend of all the colors of the spectrum. The sun gives the only pure white light, with the arc lamp a close second and the metal filament incandescents taking third place. Sky light, such as comes from the north on a clear day, is bluish white. Gas mantles give a greenish light, open flame a yellow light and kerosene an orange light.

In the dark no color exists. The color of light depends upon the length of the waves. The light source which we know as red gives off only waves of a length to produce that particular color. A body appears red because its surface absorbs all the other waves and reflects the red waves back into the eye. A thing looks black when it is capable of absorbing all the colors at once. Light rays, being in active motion, produce heat when they meet with resistance in their path. That is why black clothing is warmer than white clothing, the resistance being on the surface of the white clothing and nearer the skin when we wear black.

The eyes have only a certain range. As we all know, there are times when all appears black to us, and yet animals can see. The trouble is the faint rays move too slowly to be registered on the human retina. The X-ray has proved beyond a doubt that there are light rays which move too fast for human eyes to register. This light penetrates books, wood, paper and even human flesh. With the fluoroscope to assist our eyes we can see the bones in our arm without bothering to remove our shirt. But a man with X-ray eyes would be badly handicapped in this world, for he could see nothing but solids, such as earths and metals, and would be unable to see a board fence at all. To us all is darkness beyond what our eyes will register.

Light rays themselves are invisible. When they move through the ether alone our eyes cannot see them; consequently all is total darkness. Chicago Inter Ocean.

A FOLLOWER OF INFLENZA.

An attack of influenza is often followed by a persistent cough, which to many proves a great annoyance. Chamberlain's Cough Remedy has been extensively used and with good success for the relief and cure of his cough. Many cases have been cured after other well known remedies had failed. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii—advertisement.

Sewing machines should be treated with great care if you would have them last a long while and do perfect work. After every two days of steady work oil the machinery thoroughly, but be careful to wipe away all excess oil. Run the machine rapidly but steadily, without any thread, for five minutes after oiling. This will cause the oil to scatter and the superfluous drops can be wiped away and none will be left to stain the material you are working on.

REVERSIBLE WRAPS

Heavy tweeds, zibelines and chevrons are employed for heavy long coats, and there is still a fancy for reversible cloths with the pattern of the reverse showing in the revers and facings. A comfortable model of this order is made with the front meeting but left unfastened to give freedom to the walk while crossing over the breast and fastening at the waist. A deep shawl collar is faced with the

checked side of the material and bordered with a deep fringe, while the pockets are also faced with tweed and fringed. The sleeve remains small and is finished by a cuff bordered with a deep fringe, while the pockets are also faced with tweed and fringed. The sleeve remains small and is finished by a cuff bordered with the check and by two large buttons.

A button on each revers and one at the waist complete the decoration of a garment which looks cozy and neat,

but most affectingly simple, except perhaps the fringe. Buttons do not assert themselves as they did last year, but when they do show, whether they are of metal or of bone (and they may be of any one of the three) they are fairly aggressive.

Roosevelt announced that the old parties must follow the Progressives or go under. All loyal subjects will be assessed 25 cents a month from now until—?

Santa Claus

says

"There's no gift to compare with a Victor"

No matter how much or how little you want to pay for a Christmas gift, you won't get anything that will give so much pleasure as a Victor or Victor-Victrola.

There's one of these instruments at a price to suit every purse—Victor-Victrolas \$15, \$25, \$40, \$50, \$75, \$100, \$150, \$200; Victors \$10, \$17.50, \$25, \$32.50, \$40, \$50, \$60, \$100—and we'll arrange easy terms if desired.

Stop in any time and we'll gladly demonstrate these wonderful instruments and play any music you wish to hear.

Bergstrom Music Co.

1020 and 1022 Fort Street.

Victor-Victrola IV, \$15

Victor-Victrola XI, \$100

An Array of Holiday Suggestions

Our windows are replete with Holiday Suggestions that will easily solve the "Gift" problem. All our goods have been ordered specially for the holiday trade and represent the latest ideas of Eastern manufacturers.

Among the goods are handsome necktie combinations consisting of a tie with socks and handkerchief to match in neat boxes and leather cases. Manicure sets, all sizes and prices, traveling sets, bath robes, Belts, suspenders, pajamas, suit cases with traveling sets.

Our goods are sold on a very small margin of profit and it will pay you to look over our goods and prices before making your purchases.
